No 3 **Yes Minister?** by Yokel

Solving the clues and entering the answers in the correct place in the grid will result in a post war theatrical phenomenon appearing in the shaded column. The clues are in no particular order except that the first three are entered in the first three rows. These answers could spell MIXED DR THORA COW. The letters which appear in the yellow squares can make forenames for two of the answers giving a significant theme couple! This time with the exception of one, the answers as far as the compiler knows, have little connection with Terence Rattigan. All the answers relate to the theatre. Ignore one apostrophe. Answers in a few days along with another puzzle.
